## 38 WILL ASK FOR TEACHERS' PARDON

MYRON BAKER MUST MAKE PUBLIC APOLOGY.

## OTHERS MAY MAKE WRITTEN PENANCE

Conference of Insurgent High School Students, Board and Faculty Ends Amicably.

Thirty-eight boys of the Maryville high school will hand a written apology to Superintendent W. M. Westbrook Monday morning. An indefinite suspension has been placed upon Myron Baker, treasurer of the senior class, until he shall make a public apology to the school.

The facts in the little "blow-up" which was staged at the high school yesterday, following the walk-out at the Normal, as gathered from both the boys, the superintendent and the members of the board seemed to be these:

Myron Baker lives here with his grandparents while attending school; his home is near Burlington Junction. When he is absent no one has the authority to make an excuse for him. Two operations were performed on Baker last summer and his health has caused him to be absent many times.

Two rules at the high school are that a pupil must present an excuse when he returns the next day, and that he cannot go to his classes until he has a permit from the principal. An exceptional rule in the case of Baker had been made that he should get his excuses from Prof. Westbrook.

### How the Trouble Started.

Yesterday morning Baker went to the superintendent's office for an excuse, having been sick most of Thursday and Friday morning. Mr. Westbrook was at the Garfield school and Baker missed a class while waiting for him, because he could not enter class without a permit.

After he had stated his case and the excuse was being written, Baker asked if some way could not be arranged so that he would not miss classes when Mr. Westbrook happened to be absent. Angry words followed which resulted in Mr. Westbrook suspending Baker until he should apologize.

Myron is one of the best liked boys in the school; he won the Commercial club trip to the state fair last month. But although a bright student, he has considerable temper, as is shown by his nickname, "Satan." He is frank to admit that he said some things for which he is sorry, although insisting that Mr. Westbrook said some harsh things to him also.

Baker met Mr. Westbrook on the street at noon and other conversation followed somewhat abusive at times. So when the board of directors came together at 2 o'clock, an appeal having been made to them by Baker, the decision of the members was that the least Baker could expect from them was an upholding of the suspension until he should make a public apology.

### How the 38 "Kicked" Out.

At this point, enter the thirty-eight boys to complicate the situation. There seems to be no doubt that Baker suffered considerably in the minds of the board for actions on the part of his schoolmates for which he was not responsible.

A social center meeting was scheduled for the high school last night at which a bunch of senior boys were to entertain the other clubs with a little play under the direction of Miss Halley. Baker had a prominent place in the play.

At noon the boys heard that he was not to be allowed to take his part since

he was no longer a student in the school until he should reinstate himself. That caused an indignation meeting in which enters the important psychological element that the boys had just heard that 200 students of the Normal had walked out that morning.

So, as the boys themselves admit, hasty action without knowing all the facts ruled the situation, and almost forty of the boys picked Baker up upon their shoulders and walked out. They went over to the Baptist church lawn, where they sat around enjoying the Indian summer and their adventure until it was 1-1/2 in the middle of the afternoon that the board was meeting.

### Board Was Asked for Conference.

A representative was sent to tell the school board that the "insurgents" would like a council or parley of "war." It was granted, and the boys met in the girls' gymnasium with the board, and then later with the board and all the faculty of the high school in the assembly hall.

Here, as one boy said, they made a high school senior debate with one of the city's leading lawyers, and the board said for their part that some of the boys showed a rather ugly disposition. Several had "hroil" feelings, and Baker had been accused by this time so that he would not apologize as he had gone over intending to do at noon.

After a session of several hours in which the board, with Dr. J. Miller, vice president, in the chair, sifted the matter to their satisfaction, some of the boys asserted that they were "peevish" because the social center meeting was called off. The teachers answered that by saying that the postponement was not made until the last period in the afternoon. Other boys had various minor complaints to make about the manner in which discipline was administered by Mr. McGrew, principal, but these were considered by the board to be excused rather than reasons on the part of the boys.

So the final decision of the board was that Baker should be suspended until he should make a public apology to the school, and that the other boys should not be allowed to re-enter school Monday morning until a written apology from each one was in the hands of Mr. Westbrook.

## CLYDE FOLLOWS LASHER

SUCCESS IN RURAL SCHOOL WORK STIRS EMULATION.

Kinnaird Talks to a Full House in First of Lecture Series—Blagg Next Speaker.

A full house greeted R. A. Kinnaird at the Lasher school house last night when he talked upon the importance of scientific methods in agriculture. The address was the first of a series of lectures which will be given this winter by the school board.

The next will be about two weeks later, and the speaker will be Wesley A. Blagg. "Just watch us pack that house when Wes Blagg comes out," said one of the directors this morning.

A homemakers club was organized by the women of the district yesterday afternoon. Miss Naomi Horne is teacher of that school and one of the originators of the plan. The district is five miles southwest of Maryville.

County Superintendent Bert Cooper made a short speech last night previous to Mr. Kinnaird's address. He announced that the Clyde school district, north of Maryville, had seen of the Lasher movement and was planning a similar community service for their district.

Miss Amy Van Buren is teacher in the Clyde school.

### To Attend Funeral.

Mrs. Henry Foster left yesterday afternoon for Kansas City to attend the funeral of her aunt, Mrs. J. P. Hamilton, who died yesterday. Mrs. Foster will return Tuesday.

## BIG BRIDGE WEEK

COUNTY COURT MADE RECORD FOR CONSTRUCTION.

## JEFFERSON NEXT WEEK

Washington Township Almost Finished—Many Cement Culverts Replace Wooden Washouts.

The week just closing has probably set a new record for bridge work finished in Nodaway county. The county court, working with J. E. Reece, highway engineer, has been very busy and a large number of bridges and culverts is the result.

A steel bridge rebuilt on cement buttments was finished a mile west of Quitman. The Charles Walker bridge, near Burlington Junction, is now ready for use. This was the bridge for which the delegation came down to see the county court several weeks ago.

A cement culvert in White Cloud township, just west of Barnard; another three miles northeast of Burlington Junction, and still another two miles west of Parnell, were finished today. Two wooden bridges in Washington are in and a third is being built. Two miles northwest of Skidmore a cement culvert is almost ready.

The Washington township bridges are located as follows: One, a 20-foot span, is in the edge of Guilford; the second is six miles southwest of Guilford; and the third, which is not finished, is near Tom Moore's place. It is a 30-foot span.

Work will be begun in Jefferson township next week in getting their bridges in shape. Judge Matt Farnan of the southern district has been supervising the work most of the week.

## "CAROUSELS MUST STOP"

Prosecutor W. G. Sawyers Says Affairs Like Those of Pickering Drunks Will Be Pushed Strongly.

James and William May of near Pickering are in the county jail here charged with disturbing the peace of the family of John W. Stevens in Pickering night before last. James May was given a preliminary hearing before Justice W. L. Johnson last night. William May was arrested this morning by Deputy Sheriff Callahan in Pickering. Prosecuting Attorney Sawyers says that the drunken carousals over the county have got to stop, and that he is going to investigate every complaint and prosecute to the limit.

Other arrests in the Pickering disturbance are expected soon.

## PECULIAR ACCIDENT TO BOY.

Partial Paralysis Follows Collision in Play at School.

Harold Yates, the 7-year-old son of Mr. and Mrs. Harry Yates living south west of town, is confined to his room with partial paralysis. The boy was playing with other children at school two weeks ago, and collided with one of his playmates. He was knocked unconscious but after a while seemed better and nothing more was thought of the accident. Last Thursday, however, he complained of his limb, which appeared partially paralyzed and since then he has been unable to move it. His parents are very uneasy about him and it is to be hoped that the little fellow will soon be on the road to recovery.—Burlington Junction Post.

### To Spend Week End.

Frank Fellows of Burlington Junction went to St. Joseph yesterday to spend the week end.

## CORY WILL BE HERE

LEADER OF MEN AND MILLIONS TO SPEAK TOMORROW.

## ONCE A MARYVILLE BOY

Missionary in China Twelve Years, to Which He Will Return When Work in United States is Done.

Abram Cory will be here. He will still be called "Abe" tomorrow by his many friends of the years spent here in his teens, when his father was pastor of the Christian church here.

But he comes not as "Abe," a former Maryville boy, but as one of the two executive secretaries of the Men and Millions movement, the biggest undertaking ever made by the disciples of Christ or any other denomination probably.

Although the policy of the organization is not to announce their speakers previously, Mr. Cory assured a Maryville man in St. Joseph yesterday that he was coming. Rev. Cory was pastor of several churches in this country when he entered the ministry, after which he went to China, where he was a missionary for twelve years, and to which he expects to return when his work is done here.

He came back to the United States four years ago to take part in the movement whose purpose was to raise several hundred thousand dollars. The success of the movement has been such that the goal now is \$6,300,000 and a thousand volunteers for workers in mission fields.

Mr. Cory's success has been such that he has been made one of the highest leaders in the organization of the great men of the Christian church. The Rev. R. L. Finch, pastor of the church, urges the members to be in their places early, as practically all the time will be given to the speakers. The services at the church begin at 10:45 tomorrow morning.

## 102 DRAINAGE BOARD MEETS

Will Ask Company Why No Men Are Working On Dredge Boat Which Is Sunk.

The board of directors of the 102 drainage district was in session this morning to discuss what will be done about the work on the drainage ditch. The Marion Steam Shovel company of Marion, O., the owner of the dredge boat which has the contract for finishing the ditch, took all of their men off the job last week, and the board decided to write to that company to find out what they are going to do.

The dredge boat is still lying on its side, buried with mud, near the Conklin bridge, less than half way between Pickering and Maryville. Several efforts have been made to get the vessel upright, and each time they failed, the river rising. After the boat is raised the machinery will have to be cleaned and repaired, which will take several weeks. There will probably be no work until spring.

### Kansas Guest Leaves.

Mrs. Roxie Graves of Burr Oak, Kan., who has been visiting at the home of Mr. and Mrs. J. H. Thorp, left yesterday for her home.

R. C. Seal, superintendent of the Sunday school, met with the pastor, Rev. H. C. Holliday, this afternoon to perfect plans for the big day.

## GREECE DEFIES ALLIES

WILL NEITHER DEMOBILIZE NOR FIGHT WITH THEM.

Entente Is Told That Greece, as Sovereign State, Will Decide Treaty Duties Without Advice.

### Special to The Democrat-Forum.

Rome, Oct. 23.—Greece has defied the allies and has given a definite refusal to carry out her treaty obligations with Serbia or to disband her army.

In a joint note to each one of the powers the Greek government points out that Greece as a sovereign state has a right to regulate her own affairs.

A pledge is given that the Greek army will not interfere with the passage of the entente troops through Greece, but it insists that the army will remain mobilized.

The allies' protest that the interpretation by the Greek nation of the Serbian treaty is not the correct one, was answered by the statement that Greece would settle that question for herself and without any advice from an outside source.

## HUNGER GRIPPING GERMANY

Neutral Travelers Tell of Shortage—German Government Denies, But Has Taken Charge of Edibles.

Berlin, Oct. 23.—The German government has decided to assume control of the price and supply of all food throughout Germany.

State and provincial authorities have been handling the situation with the result that there was too much in some localities and a shortage in others.

## YOUNG PEOPLE TO FORM UNION

FEDERATION OF CHURCH SOCIETIES PROPOSED.

## S. S. ATHLETIC MEN TO MEET TOMORROW

Committee on Tentative Plans of Association at Commercial Club Rooms at 2:30 o'clock.

A reorganization of the Union of Young People's Societies of the churches of Maryville is being discussed by various individual members, and it is probable that such an organization will be revived soon.

The Christian Endeavor of the Christian church, the B. Y. P. U., the Epworth Leagues of the First and the Buchanan Street Methodist churches and the Young People's club of the Presbyterian church will have the plan proposed to them at their meetings tomorrow night.

Definite steps will probably be taken at the business meeting to follow next week. The plan as discussed among various individuals is for each president to be a member of the federation ex officio, and for each society to elect one additional representative. This board of ten would then organize itself into a Union of Young People's Societies.

The presidents of the societies are: Christian Endeavor, Miss Bertha Anderson; B. Y. P. U., Lee Meek; Buchanan Street Epworth League, I. B. Williams; First M. E. League, Virgil Hartness; Presbyterian Young People's club, Philip Colbert.

The Young People's club of the Presbyterian church is considering a change in their organization by which they will become a Christian Endeavor, associated with their own denominational board and the general society. This will be decided probably a week from tomorrow, when Rev. G. D. Fracker is here.

S. S. Basket Ball to Be Discussed. F. P. Robinson, superintendent of the Christian church Sunday school, has appointed B. A. Frost and Ed Gray as a committee to meet with representatives of other Sunday schools of the city tomorrow for a discussion of the organization of a Sunday school athletic league.

D. E. Hotchkiss, superintendent of the Presbyterian school, appointed Martin Lewis, W. E. Wakeman and the pastor, Rev. W. M. Case, as representatives of that school. I. B. Williams and Vernon Nash will represent the South Methodists. The Baptist and First Methodist will appoint men at their schools tomorrow morning.

The committee will meet at 2:30 o'clock in the Commercial club rooms tomorrow afternoon. All those interested in the organization of a Sunday school athletic association are invited to come.

#### Announcement.

We are authorized to announce Robert I. Young of Buchanan county, as a Democratic candidate for Congress from the Fourth district subject to the primary election to be held August 8, 1916.

The weather grouch is conspicuous by his absence these days.

President Wilson can think of a lot of reasons for being thankful this fall.

It's about time for England to learn that "indignation" won't win battles or stop the war.

If Germany has any cabinet mix-ups, she is wise enough not to publish them to the world.

The United States senate has had too many millionaires already and, if it is worth anything to Mr. Dickey, we don't mind suggesting that Missouri is not going to increase the number.

We are unable at present to see any danger from invasion of this country unless it be by the Children of Israel, who may be looking for the Promised Land.

If Turkey can find time she will probably kill another hundred thousand helpless Armenians just to show her contempt for the protests of civilized nations.

Do you remember that the great problem a few years ago was how to get money to move the crops in the west? Since a Democratic administration revised the currency laws and took the control from Wall street that ever-recurring problem has disappeared.

St. Louis is just completing a semi-annual clean up. Autumn seems to make greater demands for concerted action in cleaning up than the spring-time. Most householders get the beautifying contagion from nature in the birth of summer, but pride and enthusiasm wane with the sear and yellow leaf and carelessness and indifference become apparent.

Local Democratic politicians will perhaps be surprised to learn that an effort is being made to launch a boom for Judge William C. Ellison, of Maryville, for the nomination for governor. Judge Ellison is well known in this city, and particularly among the older citizens will this political gossip prove of more than ordinary interest. Kirksville Daily Democrat.

A Republican exchange suggests that former President Taft's hat band is as large as his belt, which reminds us of the man who took the bishop's hat by mistake at a church conference.

MARCELL,  
The PHOTOGRAPHER.

When the church father announced his loss at the next service, a brother arose and said: "Bishop, I took your hat by mistake. Our heads are just the same size." "Yes," drawled the bishop, "on the outside."

#### ELLISON FOR GOVERNOR.

A new name has just been added to the list of possible candidates for governor and it is one which stands high in this section of Missouri, it being none other than that of that great Missourian, Judge William C. Ellison of Maryville. So far no one seems to know Judge Ellison's intentions for he has made no statement.—St. Joseph Observer.

#### STANDS HIGH IN ABILITY.

The Albany Ledger says this week: Without saying anything disparagingly about Judge Ellison, whom we regard very highly, it is not surprising that Maryville thinks she has the man for the governor's chair. There is nothing of any consequence that comes up along any line but what Maryville thinks she has it. And most generally she gets it, too. Judge Ellison stands shoulder to shoulder in ability with any man who has been named for the governorship, but he is doing very well as circuit judge.

#### A RARE OPPORTUNITY.

Opportunity doesn't knock at your door every day, that much is certain. Whether it knocks more than once is not material. The thing that confronts us just now is an opportunity extraordinary to hear one of the world's greatest singers right here in our home town.

The managers of the Lyceum course have arranged an unusually good course, especially designed to supply our people with the highest grade entertainments at a moderate price. The entertainments are elevating and instructive. The people who have this matter in charge are doing a great deal of work in securing these numbers and in making the necessary arrangements. They do not profit one cent thereby, not even to the extent of a free ticket. They are working unselfishly and with no other purpose than to do a good turn for the community in which they live.

The one number, Alice Nielsen, is to cost more than six hundred dollars and season tickets for the entire course have been placed at the very low price of two dollars. You do not have to go off to St. Joseph, or Kansas City, pay railroad fare and hotel bills and two or three dollars for a single admission ticket, a total of ten or fifteen dollars expense. It is brought right to you at only two dollars for the whole season without the loss of even an hour from your work or business.

If this season's program meets a generous reception, more rare treats will follow. If not, of course the idea will have to be abandoned. If you want good things brought right home to you, now is the time to show it. A great many more season tickets must be sold before the program will pay out.

#### ATTENDS ANNUAL REUNION.

Wertz Family Gathering Will Be Attended by 1,000 Persons.

Mrs. A. R. Robinson, living near Maryville, left Thursday for Des Moines, Ia., to attend the fifth annual reunion of the Wertz family of which she is a member.

The Wertz family numbers over a 1,000 persons and its genealogy dates back to 1515. The Wertz family association was organized five years ago at a meeting held in Peoria, Ill. Since that time the gatherings have been held annually.

The reunion lasts from October 21 till 24, and the plan of entertainment is continuous. The first day will be a "Get Acquainted Day." Then will follow a visit to the John Connie glove factory, the proprietor being one of the clan, a visit to the state capitol and historical buildings, an address by Governor Clark and Mayor Hanna of Des Moines, auto rides, a banquet at the Savery hotel, musical entertainments and other features.

High grade Illinois coal, \$4.50 per ton. Glover & Alexander.

#### Again, That Interurban.

A gang of surveyors were in Savannah yesterday running a line along the east side of the Great Western tracks. No one seems to know just what they are doing but it is thought that they are surveying for an electric line from St. Joseph to Maryville.—Savannah Democrat.

## TO PUT HOUSE IN PRIMITIVE STATE

Restoration of New York Structure Will Be of Interest.

### KIN GIVE UP PROPERTY.

Dyckman Farm House in Upper New York City Will Be Restored to Colonial Days' Condition—Only Dwelling in Manhattan Built in Accordance With Dutch Tradition.

New York.—One hundred years ago great herds of cattle browsed daily on what has become the city's newest recreation spot—Dyckman House park. Owing to an arrangement made by Park Commissioner Ward the old Dyckman farmhouse, which stands on this property at Two Hundred and Fourth street and Broadway, will be restored to the same condition in which it was in colonial days. Mrs. Bashford Dean and Mrs. Alexander McMillan Welsh, who have presented this house to the city, have not only given the surrounding park, but have agreed to improve it in accordance with the plans of the park department.

Some incidents which figured have been furnished to Commissioner Ward by Professor Bashford Dean, whose wife, Mary Alice Dyckman, is one of the park donors. Professor Dean is curator of the collection of armor in the Metropolitan Museum of Art. He has been at pains to produce the picturesque and accurate account of the house and its inhabitants, which follows:

The ancient Dyckman homestead, which stands on a knoll at the corner of Broadway and Two Hundred and Fourth street, is unquestionably the only remaining dwelling house on Manhattan Island built by a Dutch family in accordance with the past Dutch traditions.

Times have gone by, and many changes have occurred. The last of the family bearing the name in the vicinity died recently in the person of Mrs. Fannie Blackwell Brown, widow of the late Isaac Michael Dyckman and herself of Dyckman descent in several lines. Her two daughters, Mrs. Bashford Dean, who was Mary Alice Dyckman, and Mrs. Alexander McMillan Welsh, who was Fannie Frederika Dyckman, have as the last of the Kingsbridge Dyckmans decided to perpetuate the old Dyckman house in memory of their parents.

The Dyckman house in question was built at the end of the war of independence, about 1785, as nearly as records go. It was then that the family returned to their lands after the perils of the war. Their ancient home, which had been built opposite the present one, nearer the river, had been burned down by the British. So a new house was built on ground which was somewhat higher and nearer the post road.

James Dyckman and Dr. Jacobus Dyckman were early graduates of Columbia college (1809-1811). Both died young, one a lawyer and the other a distinguished physician—he was health commissioner of New York, author and scientist. It was he who is said to have obtained for Columbia college when he was secretary of the old Philosophical society of this city the relics of Benjamin Franklin which it now has. Jacobus Dyckman, son of the builder of the house, was one of the best known men in New York, long time alderman and a member of the constitutional convention in 1821.

It was Jacobus Dyckman who took an especial liking to his young grandson, Isaac Michael Dyckman, which led ultimately to his coming to stay in the Kingsbridge household. He was then a boy of seven, the second son of Jacobus Dyckman's daughter Hannah, who had married Squire Caleb Smith of Yonkers. So his name was not originally Dyckman. The Dyckman estate was so large it required great care in its upkeep. So it came about that Mr. Isaac Dyckman, the surviving bachelor uncle, looked ultimately to his nephew for help. At that time, it appeared, Mr. Isaac Dyckman had probably more real property in his hands than any other single property owner of Manhattan has had before or since. At his death in 1808 it was found that his estate was to be divided among his various nephews and nieces. His favorite nephew, however, received the major part, but with the proviso that his name should be changed by the legislature from James Frederick Dyckman Smith to Isaac Michael Dyckman.

The latter did not retain the house as part of his heritage. It was no longer as he remembered it, and he had himself built a house in the northern part of the property not far from his uncle's. In fact, the old house had changed inside and out. Even the old cook black Hannah, who was half Indian and lived to be a hundred years old, had gone away—to the old Indian cemetery formerly on the corner of Broadway and Dyckman street. Then, too, Mr. Dyckman found that the approach of a great city meant heavy assessments and taxes, when, in order to have parts of his tract developed, he should practically make people presents of his leaseholds. Indeed, it was this Jan Dyckman who devised for this whole region the farsighted plan of letting tenants have property for almost nothing in order that the future returns might be assured. One of his famous leases gave a tenant a valuable farm for one hen a year for years!

### NEVADA DIVORCE DENIED.

Bridgeport Suit May Bring Adjudication on Validity of Western Decree. Greenwich, Conn.—In the superior court at Bridgeport before Judge Case the many side issues in the divorce petition of Rudolph Ernest Tiedemann against Gertrude Eleanor Tiedemann of this place were disclosed on a motion to strike out an alleged amended reply.

The real issue of the case will show the attitude of the Connecticut court on divorces issued in Nevada. Three years ago Mrs. Tiedemann obtained a divorce in Nevada and was allowed custody of the child and alimony. Last March the husband sued for divorce, alleging desertion, paying no attention to the Nevada decree. He never paid any of the alimony, it is alleged, and now seeks custody of the child.

The amended reply is that the Nevada divorce is not good, because neither of the parties was a resident. Decision was reserved.

### SLIP BRINGS DREAM TRUE.

Printer Laughed, but Loses Hand Exactly as Foretold.

Kansas City.—John W. Reed of the Read Printing company named the other night of cutting off his hand in a paper cutter in his shop. He laughed when he told about the dream and said he was not superstitious and had no fear.

Next day as he passed the cutter Reed slipped and struck the lever. His left hand went under the blade and was severed at the wrist.

The workmen, remembering the dream, became confused and ten minutes passed before a physician was called.

### LOST GIRL CRAWLS MILES.

Thrown by Runaway, She Is Left Crippled in Desert.

Needles, Cal.—Lost in the desert, forced to crawl for miles on her hands and knees during the night and finally rescued by a railroad engineer as she lay unconscious on the tracks, were the adventures that befell Miss Louise M. Pearson, twenty-two, of Oakland, in the Mohave desert.

Miss Pearson left Ludlow on horseback to locate a mine in Old Dad mountains. Ten miles out her horse threw her. Her ankle was so severely sprained she could not walk, and the horse, carrying food supplies, raced away.

## OVER 240 NEW GAME LAWS ENACTED BY U. S.

### Agricultural Department Presses Campaign of Protection.

Washington.—The department of agriculture has inaugurated a vigorous campaign for the protection of game under the federal law and is aiding the various states in carrying out their statutes.

More than 240 new game laws were enacted during 1915—a larger number than in any previous year except 1911. Forty-three states held regular legislative sessions, and in all of these states except Arizona, Georgia and Nebraska some changes were made in the statutes protecting game. The largest number of new game laws passed in any one state was sixty-one, in North Carolina, but in California, Connecticut, Maine, New Jersey, Oregon, Pennsylvania and Wisconsin the number reached ten or more. Several measures were vetoed, including a general game bill in Idaho, the first bill appropriating the hunting license fund in Pennsylvania, a bill protecting bears in California and three sections of the game bill in Washington state.

A number of bills were introduced for the purpose of harmonizing the state laws on migratory birds with the federal regulations. In at least nine states changes were made which brought the seasons into substantial agreement—namely, California, Connecticut, Maine, Michigan, New Hampshire, Tennessee and West Virginia. In Illinois the seasons for all migratory birds except coot and waterfowl and in Washington for the smaller shore birds were made to conform with the regulations under the federal law.

Uniformity was also secured by provisions in the laws of Connecticut, Maine, New Mexico, North Dakota, Washington and Wisconsin, prohibiting hunting between sunset and sunrise. On the other hand, Delaware adopted a resolution opposing the migratory bird law, and Ohio and Rhode Island, which had harmonized their seasons in 1914, changed the seasons on waterfowl this year.

As a result of the decision of the supreme court of the United States on Jan. 19, 1914, sustaining the alien hunting law of Pennsylvania, legislation prohibiting aliens from hunting or owning shotguns or rifles was enacted in at least four states—Massachusetts, New Jersey, North Dakota and West Virginia—but certain exceptions based on property qualifications were made in Massachusetts and New Jersey.

### HOGS FOR HOME BUTCHERING.

Select and Begin to Feed Now and Kill Late in December.

Crisp, frosty mornings warn us that hog-killing time is coming. The farmer is entitled to the best pork that can be produced. It is better not to wait until the animals are fat, but to select a few at once and feed them especially for home butchering. They should have some muscle-building material in addition to the corn, so as to get a proper mixture of lean and fat meat. Oil meal, shorts, and tankage are very good to add to corn and wheat may well form part of the feed, especially this year when there is so much field-damaged grain on hand.

Select hogs that combine as many as possible of the good points of bacon and lard breeds so that there will be reasonably good sides as well as hams and shoulders when the carcasses are cut up. Keep the animals selected growing rapidly but do not let them get too fat, in order to get the most desirable hams and bacon cuts, even though this method does not bring as much lard.

One or two hogs may be killed when ever meat is wanted for immediate use but the main supply for the year should not be killed until late in December. Before that time there is too much danger from the warm weather which causes so much loss of meat every year. Watch the weather fore-

cast and make special provision if you know a warm spell is coming.

Kill more hogs than you need for own use so that you will have some country-cured meat to sell. Many people will buy it in preference to anything else, especially if you establish a reputation in this line. If you live in Missouri, be sure to exhibit at the Ham and Bacon Show at Columbia, Farmers' Week.

## STEEL KING GIVES WARNING

Judge E. H. Gary Says Great Prosperity Won't Follow War.—Advocates Bible Motto for Business.

Cleveland, Ohio, Oct. 22.—A warning to the people of the United States that they must not put too much dependence in prophecies that this country will enjoy for a long period after the war unparalleled prosperity which will put it at the head of all nations, was sounded here today by Judge Elbert H. Gary, chairman of the United States Steel Corporation, in an address before the American Iron and Steel Institute of which he is president.

Judge Gary's topic was "Publicity" and he advanced the theory that publicity is one of the best solutions that can be administered to cure business ills from which this country has suffered.

He said that, in his opinion, "we are to have a period of industrial rest in this country" and predicted that would result in a healthy industrial growth. The speaker advised business men to adopt for their golden rule in business the Bible text from Romans:

"For none of us liveth to himself and no man dieth to himself."

Broad white streamers twined with smilax were draped from the chandelier over the table to the four corners, where they were tied with bows of white tulle. A miscellaneous shower had been planned as a surprise for Miss Robinson, and the

gifts were placed inside a large pink "cake" in the center of the table. This was surmounted by a cut glass vase filled with pink roses, the vase being the shower gift of the hostesses to the bride. The favors were white china miniature cupids on pink heart shaped

cakes. Pink and white was carried through the menu served. The ices were heart shaped designs in pink with tiny white cupids and the candies were pink hearts. The guests were limited to the members of the Hum Drum club and a few close friends.

"My sales are satisfactory and going fine."—R. P. Hosmer, the Auctioneer. Mr. Hosmer is the most progressive sale auctioneer in this part of the state. He believes in advertising. His sales are advertised by both newspaper space and bills. He knows as well as the progressive farmers that it pays to advertise a sale generously.

## The Farmers of Nodaway County Find That It Pays To Advertise

It used to be that when a farmer held a sale the first thing he did was to have a number of bills printed. These he placed along the roads in more or less conspicuous places. If he was lucky the bills remained. Most generally long before the sale the sun and rain had made them illegible, or the wind had torn them down.

It occurred to some of the more progressive farmers of the county that this was most unsatisfactory. They could no longer trust sale bills and nothing else. They didn't like to be disappointed in attendance at their sales. They found also that beside the chances of remaining in-

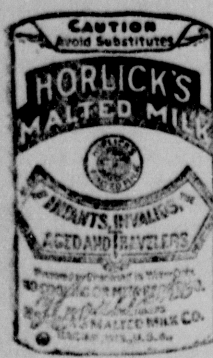

tact the bill was not read closely by those who drove by. They were read by only a few people.

Now these progressive farmers knew that it paid the merchants to advertise in the newspapers and so they began to advertise their public sales in the DEMOCRAT-FORUM and other newspapers. They made their appeal direct to hundreds of buyers through the advertising columns. The prospective buyer read the sale ad at his leisure. The seller had all the big advantage of making his appeal direct to the buyer. The sale advertisement went direct to hundreds of readers, right to their homes. The appeal was convincing.

Now these progressive Nodaway County Farmers find that this form of advertising pays them many times over, that their sales go hundreds of dollars higher. They can no longer trust sale bill advertising, only.

You Appreciate All of These Facts. Your First Consideration then when You expect to hold a sale, is to call at the Advertising Department of The Democrat-Forum and arrange for advertising your sale, so that you can reach the hundreds of buyers direct. Your Democrat-Forum advertising space will be your best salesman.

## DREYFUS AT LAST GETS VINDICATION

Given Command After Twenty Years of Degradation.

### ACCUSED AS A TRAITOR.

Was incarcerated on Devil's Island on Charge of Selling Secrets to Germany—World's Famous Case Rent French Nation in Two in Bitter Wave of Anti-Semitism.

Paris.—The restoration of Major Dreyfus to active command in the French army at this time, when his country is at war with her arch enemy must be looked upon as the most complete vindication of the French military officer from the charge that at one time he sold secrets to Germany. The Dreyfus case has several times excited France to the verge of revolution. It has overthrown ministries, incited anti-Semitic fanaticism and provoked extravagant glorification of the army.

Three conditions prevailing in France in 1894 led to the accusing and condemning of Captain Alfred Dreyfus for treason on the allegation that he sold military secrets to the German government.

The first and underlying cause was a violent agitation against Jews.

The second was the discovery that somebody was furnishing information about army plans to Colonel Schwarzkoppen, the German military attaché in Paris.

The third was the personal unpopularity of Captain Dreyfus among his associates of the general staff.

These things, combined with a ready unscrupulousness on the part of certain officers to manufacture evidence to bear out their prejudiced theories.

MAJOR ALFRED DREYFUS AS HE LOOKED AT TIME OF HIS TRIAL.

led to a concentration on the brilliant Jewish officer, his accusation, his quick trial and his deportation to horrible imprisonment on Devil's Island, off the coast of South America.

In the Dreyfus case the mills of justice were grinding slowly indeed, but they were grinding surely. It took twelve years formally to establish an innocence in which the world at large long believed.

Alongside of Dreyfus, the martyr, have stood two heroes whose names deserve to be indelibly linked with the love of truth and justice.

One of them was Emile Zola, most noted of modern French novelists. For simple love of truth he dared to take up the cause of a condemned man and defy government and army in his famous letter beginning "I accuse." For that he was sentenced to a heavy fine and imprisonment and the loss of his Legion of Honor button. He fled into exile.

The other man was Colonel Picquart, who sacrificed rank in the army, favor, fortune, fought duels and suffered months of imprisonment because he dared proclaim the guilt of his brother officers in condemning an innocent man. It was he who discovered the forgeries and the crimes that convicted Dreyfus and he who had the courage to stand for the truth.

He was cashiered in disgrace, but the rehabilitation of the chief sufferer brought about his restoration. Without the discoveries made by Colonel Picquart while chief of the intelligence bureau of the army it is doubtful whether the innocence of Dreyfus ever could have been established.

In 1899 the courts ordered the prisoner brought back to France for retrial. The session began at Rennes in August before a court of seven officers, presided over by Colonel Jouhaux. The prisoner, like one raised from the dead, made a dazed and unfavorable appearance. Labori, his lawyer, made a brilliant case and won great fame.

Dreyfus was freed, but not rehabilitated. The verdict of the court martial left him under suspicion. He refused to accept the judgment as final. He must have complete vindication and be restored to the same plane of innocence on which he stood before the accusation of 1894. This was given him seven years later when the supreme court of the republic annulled the verdict of the Rennes court martial, and then he was given the rank of a major in the army.

### W. B. BLACHLEY, 59, DEAD.

Succumbs at St. Joseph Sanitarium—Funeral Services to Be Held Tuesday.

W. B. Blachley, 59 years old, died at 11:30 o'clock today at a sanitarium in St. Joseph, where he went about a week ago for treatment.

The body will be brought to Maryville tonight and taken to the family home, on West Fourth street.

### A CHILD HATES OIL, CALOMEL, PILLS FOR LIVER AND BOWELS

Give "California Syrup of Figs" if Cross, Sick, Feverish, Constipated.

Look back at your childhood days. Remember the "dose" mother insisted on—castor oil, calomel, cathartics. How you hated them, how you fought against taking them.

With our children it's different. Mothers who cling to the old form of physic simply don't realize what they do. The children's revolt is well-founded. Their tender little "insides" are injured by them.

If your child's stomach, liver and bowels need cleansing, give only delicious "California Syrup of Figs." Its action is positive, but gentle. Millions of mothers keep this harmless "fruit laxative" handy; they know children love to take it; that it never fails to clean the liver and bowels and sweeten the stomach, and that a teaspoonful given today saves a sick child tomorrow.

Ask your druggist for a 50-cent bottle of "California Syrup of Figs," which has full directions for babies, children of all ages and for grown-ups plainly on each bottle. Beware of counterfeits sold here. See that it is made by "California Fig Syrup Company." Refuse any other kind with contempt.

### THREE TRACTORS COMING

Emerson-Brantingham Sending a 12-20 Mogul—Another May Be Sent, Commercial Club Hears.

Still another tractor is coming for the meetings of the Farm Institute and Teachers Associations next week. The Emerson-Brantingham Company of Kansas City notified the Maryville Commercial Club this morning that they had shipped one of their 12-20 tractors which would arrive here Monday and remain all week.

There is a good chance that another will be sent which will be all that can be accommodated at the Normal without getting more land to plow. This now makes three which are already assured for the meetings.

Considerable interest was attracted yesterday afternoon on the streets to the passing of a tractor along the streets from the station out to the Normal field, where it will be used in exhibitions next week. The chief feature of interest was the fact that William Fehr, small son of Fred Fehr, who accompanied the trip, guided the tractor and demonstrated the simplicity of its management.

Three of the heroes, Colonel Leu, a sergeant and a private, received the first class of this decoration.

## 38 WILL ASK FOR TEACHERS' PARDON

MYRON BAKER MUST MAKE PUBLIC APOLOGY.

## OTHERS MAY MAKE WRITTEN PENANCE

Conference of Insurgent High School Students, Board and Faculty Ends Amicably.

Thirty-eight boys of the Maryville high school will hand a written apology to Superintendent W. M. Westbrook Monday morning. An indefinite suspension has been placed upon Myron Baker, treasurer of the senior class, until he shall make a public apology to the school.

The facts in the little "blow-up" which was staged at the high school yesterday, following the walk-out at the Normal, as gathered from both the boys, the superintendent and the members of the board seemed to be these:

Myron Baker lives here with his grandparents while attending school; his home is near Burlington Junction. When he is absent no one has the authority to make an excuse for him. Two operations were performed on Baker last summer and his health has caused him to be absent many times.

Two rules at the high school are that a pupil must present an excuse when he returns the next day, and that he cannot go to his classes until he has a permit from the principal. An exceptional rule in the case of Baker had been made that he should get his excuses from Prof. Westbrook.

### How the Trouble Started.

Yesterday morning Baker went to the superintendent's office for an excuse, having been sick most of Thursday and Friday morning. Mr. Westbrook was at the Garfield school and Baker missed a class while waiting for him, because he could not enter class without a permit.

After he had stated his case and the excuse was being written, Baker asked if some way could not be arranged so that he would not miss classes when Mr. Westbrook happened to be absent. Angry words followed which resulted in Mr. Westbrook suspending Baker until he should apologize.

Myron is one of the best liked boys in the school; he won the Commercial club trip to the state fair last month. But although a bright student, he has considerable temper, as is shown by his nickname, "Satan." He is frank to admit that he said some things for which he is sorry, although insisting that Mr. Westbrook said some harsh things to him also.

Baker met Mr. Westbrook on the street at noon and other conversation followed somewhat abusive at times. So when the board of directors came together at 2 o'clock, an appeal having been made to them by Baker, the decision of the members was that the least Baker could expect from them was an upholding of the suspension until he should make a public apology.

### How the 38 "Kicked" Out.

At this point, enter the thirty-eight boys to complicate the situation. There seems to be no doubt that Baker suffered considerably in the minds of the board for actions on the part of his schoolmates for which he was not responsible.

A social center meeting was scheduled for the high school last night at which a bunch of senior boys were to entertain the other clubs with a little play under the direction of Miss Halley. Baker had a prominent place in the play.

At noon the boys heard that he was not to be allowed to take his part since

he was no longer a student in the school until he should reinstate himself. That caused an indignation meeting in which enters the important psychological element that the boys had just heard that 200 students of the Normal had walked out that morning.

So, as the boys themselves admit, hasty action without knowing all the facts ruled the situation, and almost forty of the boys picked Baker up upon their shoulders and walked out. They went over to the Baptist church lawn, where they sat around enjoying the Indian summer and their adventure until it was late in the middle of the afternoon that the board was meeting.

### Board Was Asked for Conference.

A representative was sent to tell the school board that the "insurgents" would like a council or parley of "war." It was granted, and the boys met in the girls' gymnasium with the board, and then later with the board and all the faculty of the high school in the assembly hall.

Here, as one boy said, they made a high school senior debate with one of the city's leading lawyers, and the board said for their part that some of the boys showed a rather ugly disposition. Several had "heroi" feelings, and Baker had been accused by this time so that he would not apologize as he had gone over intending to do at noon.

After a session of several hours in which the board, with Dr. J. Miller, vice president, in the chair, sifted the matter to their satisfaction, some of the boys asserted that they were "peevish" because the social center meeting was called off. The teachers answered that by saying that the postponement was not made until the last period in the afternoon. Other boys had various minor complaints to make about the manner in which discipline was administered by Mr. McGrew, principal, but these were considered by the board to be excused rather than reasons on the part of the boys.

So the final decision of the board was that Baker should be suspended until he should make a public apology to the school, and that the other boys should not be allowed to re-enter school Monday morning until a written apology from each one was in the hands of Mr. Westbrook.

## CLYDE FOLLOWS LASHER

SUCCESS IN RURAL SCHOOL WORK STIRS EMULATION.

Kinnaird Talks to a Full House in First of Lecture Series—Blagg Next Speaker.

A full house greeted R. A. Kinnaird at the Lasher school house last night when he talked upon the importance of scientific methods in agriculture. The address was the first of a series of lectures which will be given this winter by the school board.

The next will be about two weeks later, and the speaker will be Wesley A. Blagg. "Just watch us pack that house when Wes Blagg comes out," said one of the directors this morning.

A homemakers club was organized by the women of the district yesterday afternoon. Miss Noemi Horne is teacher of that school and one of the originators of the plan. The district is five miles southwest of Maryville.

County Superintendent Bert Cooper made a short speech, last night previous to Mr. Kinnaird's address. He announced that the Clyde school district, north of Maryville, had seen of the Lasher movement and was planning a similar community service for their district.

Miss Amy Van Buren is teacher in the Clyde school.

### To Attend Funeral.

Mrs. Henry Foster left yesterday afternoon for Kansas City to attend the funeral of her aunt, Mrs. J. P. Hamilton, who died yesterday. Mrs. Foster will return Tuesday.

## BIG BRIDGE WEEK

COUNTY COURT MADE RECORD FOR CONSTRUCTION.

## JEFFERSON NEXT WEEK

Washington Township Almost Finished—Many Cement Culverts Replace Wooden Washouts.

The week just closing has probably set a new record for bridge work finished in Nodaway county. The county court, working with J. E. Reece, highway engineer, has been very busy and a large number of bridges and culverts is the result.

A steel bridge rebuilt on cement buttments was finished a mile west of Quitman. The Charles Walker bridge, near Burlington Junction, is now ready for use. This was the bridge for which the delegation came down to see the county court several weeks ago.

A cement culvert in White Cloud township, just west of Barnard; another three miles northeast of Burlington Junction, and still another two miles west of Parnell, were finished today. Two wooden bridges in Washington are in and a third is being built. Two miles northwest of Skidmore a cement culvert is almost ready.

The Washington township bridges are located as follows: One, a 20-foot span, is in the edge of Guilford; the second is six miles southwest of Guilford; and the third, which is not finished, is near Tom Moore's place. It is a 30-foot span.

Work will be begun in Jefferson township next week in getting their bridges in shape. Judge Matt Farnan of the southern district has been supervising the work most of the week.

### "CAROUSELS MUST STOP"

Prosecutor W. G. Sawyers Says Affairs Like Those of Pickering Drunks Will Be Pushed Strongly.

James and William May of near Pickering are in the county jail here charged with disturbing the peace of the family of John W. Stevens in Pickering night before last. James May was given a preliminary hearing before Justice W. L. Johnson last night. William May was arrested this morning by Deputy Sheriff Callahan in Pickering. Prosecuting Attorney Sawyers says that the drunken carousals over the county have got to stop, and that he is going to investigate every complaint and prosecute to the limit.

Other arrests in the Pickering disturbance are expected soon.

### PECULIAR ACCIDENT TO BOY.

Partial Paralysis Follows Collision in Play at School.

Harold Yates, the 7-year-old son of Mr. and Mrs. Harry Yates living south west of town, is confined to his room with partial paralysis. The boy was playing with other children at school two weeks ago, and collided with one of his playmates. He was knocked unconscious but after a while seemed better and nothing more was thought of the accident. Last Thursday, however, he complained of his limb, which appeared partially paralyzed and since then he has been unable to move it. His parents are very uneasy about him and it is to be hoped that the little fellow will soon be on the road to recovery.—Burlington Junction Post.

### To Spend Week End.

Frank Follows of Burlington Junction went to St. Joseph yesterday to spend the week end.

## CORY WILL BE HERE

LEADER OF MEN AND MILLIONS TO SPEAK TOMORROW.

## ONCE A MARYVILLE BOY

Missionary in China Twelve Years, to Which He Will Return When Work in United States is Done.

Abram Cory will be here. He will still be called "Abe" tomorrow by his many friends of the years spent here in his teens, when his father was pastor of the Christian church here.

But he comes not as "Abe," a former Maryville boy, but as one of the two executive secretaries of the Men and Millions movement, the biggest undertaking ever made by the Disciples of Christ or any other denomination probably.

Although the policy of the organization is not to announce their speakers previously, Mr. Cory assured a Maryville man in St. Joseph yesterday that he was coming. Rev. Cory was pastor of several churches in this country when he entered the ministry, after which he went to China, where he was a missionary for twelve years, and to which he expects to return when his work is done here.

He came back to the United States four years ago to take part in the movement whose purpose was to raise several hundred thousand dollars. The success of the movement has been such that the goal now is \$6,000,000 and a thousand volunteers for workers in mission fields.

Mr. Cory's success has been such that he has been made one of the highest leaders in the organization of the great men of the Christian church. The Rev. R. L. Finch, pastor of the church, urges the members to be in their places early, as practically all the time will be given to the speakers. The services at the church begin at 10:45 tomorrow morning.

## 102 DRAINAGE BOARD MEETS

Will Ask Company Why No Men Are Working On Dredge Boat Which is Sunk.

The board of directors of the 102 drainage district was in session this morning to discuss what will be done about the work on the drainage ditch. The Marion Steam Shovel company of Marion, O., the owner of the dredge boat which has the contract for finishing the job, took all of their men off the ditch last week, and the board decided to write to that company to find out what they are going to do.

The dredge boat is still lying on its side, buried with mud, near the Conklin bridge, less than half way between Pickering and Maryville. Several efforts have been made to get the vessel upright, and each time they failed, the river rising. After the boat is raised the machinery will have to be cleaned and repaired, which will take several weeks. There will probably be no work until spring.

### Kansas Guest Leaves.

Mrs. Roxie Graves of Burr Oak, Kan., who has been visiting at the home of Mr. and Mrs. J. H. Thorp, left yesterday for her home.

R. C. Seal, superintendent of the Sunday school, met with the pastor, Rev. H. C. Holliday, this afternoon to perfect plans for the big day.

## GREECE DEFIES ALLIES

WILL NEITHER DEMOBILIZE NOR FIGHT WITH THEM.

Entente Is Told That Greece, as Sovereign State, Will Decide Treaty Duties Without Advice.

### Special to The Democrat-Forum.

Rome, Oct. 23.—Greece has defied the allies and has given a definite refusal to carry out her treaty obligations with Serbia or to disband her army.

In a joint note to each one of the powers the Greek government points out that Greece as a sovereign state has a right to regulate her own affairs.

A pledge is given that the Greek army will not interfere with the passage of the entente troops through Greece, but it insists that the army will remain mobilized.

The allies' protest that the interpretation by the Greek nation of the Serbian treaty is not the correct one, was answered by the statement that Greece would settle that question for herself and without any advice from an outside source.

## HUNGER GRIPPING GERMANY

Neutral Travelers Tell of Shortage—German Government Denies, But Has Taken Charge of Edibles.

Berlin, Oct. 23.—The German government has decided to assume control of the price and supply of all food throughout Germany.

State and provincial authorities have been handling the situation with the result that there was too much in some localities and a shortage in others.

### Claim Food Shortage in Berlin.

### Investigating Cotton Combine.

Special to The Democrat-Forum. Washington, Oct. 23.—The Federal Trade commission has ordered an investigation of the charges that the cotton buyers in North and South Carolina and Georgia have a combine to hold down the price of cotton.

Mrs. W. C. Wilson of Graham went to St. Joseph last night for a few days' stay.

## YOUNG PEOPLE TO FORM UNION

FEDERATION OF CHURCH SOCIETIES PROPOSED.

## S. S. ATHLETIC MEN TO MEET TOMORROW

Committee on Tentative Plans of Association at Commercial Club Rooms at 2:30 o'Clock.

A reorganization of the Union of Young People's Societies of the churches of Maryville is being discussed by various individual members, and it is probable that such an organization will be revived soon.

The Christian Endeavor of the Christian church, the B. Y. P. U., the Epworth Leagues of the First and the Buchanan Street Methodist churches and the Young People's club of the Presbyterian church will have the plan proposed to them at their meetings tomorrow night.

Definite steps will probably be taken at the business meeting to follow next week. The plan as discussed among various individuals is for each president to be a member of the federation ex officio, and for each society to elect one additional representative. This board of ten would then organize itself into a Union of Young People's Societies.

The presidents of the societies are: Christian Endeavor, Miss Bertha Anderson; B. Y. P. U., Lee Meek; Buchanan Street Epworth League, I. B. Williams; First M. E. League, Virgil Hartness; Presbyterian Young People's club, Philip Colbert.

The Young People's club of the Presbyterian church is considering a change in their organization by which they will become a Christian Endeavor, associated with their own denominational board and the general society. This will be decided probably a week from tomorrow, when Rev. G. D. Fracker is here.

### S. S. Basket Ball to Be Discussed.

F. P. Robinson, superintendent of the Christian church Sunday school, has appointed B. A. Frost and Ed Gray as a committee to meet with representatives of other Sunday schools of the city tomorrow for a discussion of the organization of a Sunday school athletic league.

D. E. Hotchkiss, superintendent of the Presbyterian school, appointed Martin Lewis, W. E. Wakeman and the pastor, Rev. W. M. Case, as representatives of that school. I. B. Williams and Vernon Nash will represent the South Methodists. The Baptist and First Methodist will appoint men at their schools tomorrow morning.

The committee will meet at 2:30 o'clock in the Commercial club rooms tomorrow afternoon. All those interested in the organization of a Sunday school athletic association are invited to come.

### Announcement.

We are authorized to announce Robert I. Young of Buchanan county, as a Democratic candidate for Congress from the Fourth district subject to the primary election to be held August 8, 1916.

The weather grouch is conspicuous by his absence these days.

President Wilson can think of a lot of reasons for being thankful this fall.

It's about time for England to learn that "indignation" won't win battles or stop the war.

If Germany has any cabinet mix-ups, she is wise enough not to publish them to the world.

The United States senate has had too many millionaires already and, if it is worth anything to Mr. Dickey, we don't mind suggesting that Missouri is not going to increase the number.

We are unable at present to see any danger from invasion of this country unless it be by the Children of Israel, who may be looking for the Promised Land.

If Turkey can find time she will probably kill another hundred thousand helpless Armenians just to show her contempt for the protests of civilized nations.

Do you remember that the great problem a few years ago was how to get money to move the crops in the west? Since a Democratic administration revised the currency laws and took the control from Wall street that ever-recurring problem has disappeared.

St. Louis is just completing a semi-annual clean up. Autumn seems to make greater demands for concerted action in cleaning up than the spring-time. Most householders get the beautifying contagion from nature in the birth of summer, but pride and enthusiasm wane with the year and yellow leaf and carelessness and indifference become apparent.

Local Democratic politicians will perhaps be surprised to learn that an effort is being made to launch a boom for Judge William C. Ellison, of Maryville, for the nomination for governor. Judge Ellison is well known in this city, and particularly among the older citizens will this political gossip prove of more than ordinary interest. *Kirksville Daily Democrat.*

A Republican exchange suggests that former President Taft's hat band is as large as his belt, which reminds us of the man who took the bishop's hat by mistake at a church conference.

When the church father announced his loss at the next service, a brother arose and said: "Bishop, I took your hat by mistake. Our heads are just the same size." "Yes," drawled the bishop, "on the outside."

### ELLISON FOR GOVERNOR.

A new name has just been added to the list of possible candidates for governor and it is one which stands high in this section of Missouri, it being none other than that of that great Missourian, Judge William C. Ellison of Maryville. So far no one seems to know Judge Ellison's intentions for he has made no statement.—St. Joseph Observer.

### STANDS HIGH IN ABILITY.

The Albany Ledger says this week: Without saying anything disparagingly about Judge Ellison, whom we regard very highly, it is not surprising that Maryville thinks she has the man for the governor's chair. There is nothing of any consequence that comes up along any line but what Maryville thinks she has it. And most generally she gets it, too. Judge Ellison stands shoulder to shoulder in ability with any man who has been named for the governorship, but he is doing very well as circuit judge.

### A RARE OPPORTUNITY.

Opportunity doesn't knock at your door every day, that much is certain. Whether it knocks more than once is not material. The thing that confronts us just now is an opportunity extraordinary to hear one of the world's greatest singers right here in our home town.

The managers of the Lyceum course have arranged an unusually good course, especially designed to supply our people with the highest grade entertainments at a moderate price. The entertainments are elevating and instructive. The people who have this matter in charge are doing a great deal of work in securing these numbers and in making the necessary arrangements. They do not profit one cent thereby, not even to the extent of a free ticket. They are working unselfishly and with no other purpose than to do a good turn for the community in which they live.

The one number, Alice Nielsen, is to cost more than six hundred dollars and season tickets for the entire course have been placed at the very low price of two dollars. You do not have to go off to St. Joseph, or Kansas City, pay railroad fare and hotel bills and two or three dollars for a single admission ticket, a total of ten or fifteen dollars expense. It is brought right to you at only two dollars for the whole season without the loss of even an hour from your work or business.

If this season's program meets a generous reception, more rare treats will follow. If not, of course the idea will have to be abandoned. If you want good things brought right home to you, now is the time to show it. A great many more season tickets must be sold before the program will pay out.

### ATTENDS ANNUAL REUNION.

Wertz Family Gathering Will Be Attended by 1,000 Persons.

Mrs. A. R. Robinson, living near Maryville, left Thursday for Des Moines, Ia., to attend the fifth annual reunion of the Wertz family of which she is a member.

The Wertz family numbers over a 1,000 persons and its genealogy dates back to 1515. The Wertz family association was organized five years ago at a meeting held in Peoria, Ill. Since that time the gatherings have been held annually.

The reunion lasts from October 21 till 24, and the plan of entertainment is continuous. The first day will be a "Get Acquainted Day." Then will follow a visit to the John Connie glove factory, the proprietor being one of the clan, a visit to the state capitol and historical buildings, an address by Governor Clark and Mayor Hanna of Des Moines, auto rides, a banquet at the Savery hotel, musical entertainments and other features.

### Again, That Interurban.

A gang of surveyors were in Savannah yesterday running a line along the east side of the Great Western tracks. No one seems to know just what they are doing but it is thought that they are surveying for an electric line from St. Joseph to Maryville.—Savannah Democrat.

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a running sound or imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflammation can be taken out of this tube restored to its normal condition, hearing will be destroyed forever. ## TO PUT HOUSE IN PRIMITIVE STATE

Restoration of New York Structure Will Be of Interest.

### KIN GIVE UP PROPERTY.

Dyckman Farm House in Upper New York City Will Be Restored to Colonial Days' Condition—Only Dwelling in Manhattan Built in Accordance With Dutch Tradition.

New York.—One hundred years ago great herds of cattle browsed daily on what has become the city's newest recreation spot—Dyckman House park. Owing to an arrangement made by Park Commissioner Ward the old Dyckman farmhouse, which stands on this property at Two Hundred and Fourth street and Broadway, will be restored to the same condition in which it was in colonial days. Mrs. Bashford Dean and Mrs. Alexander McMillan Welsh, who have presented this house to the city, have not only given the surrounding park, but have agreed to improve it in accordance with the plans of the park department.

Some incidents which figured have been furnished to Commissioner Ward by Professor Bashford Dean, whose wife, Mary Alice Dyckman, is one of the park donors. Professor Dean is curator of the collection of armor in the Metropolitan Museum of Art. He has been at pains to produce the picturesque and accurate account of the house and its inhabitants, which follows:

The ancient Dyckman homestead, which stands on a knoll at the corner of Broadway and Two Hundred and Fourth street, is unquestionably the only remaining dwelling house on Manhattan Island built by a Dutch family in accordance with the past Dutch traditions.

Times have gone by, and many changes have occurred. The last of the family bearing the name in the vicinity died recently in the person of Mrs. Fannie Blackwell Brown, widow of the late Isaac Michael Dyckman and herself of Dyckman descent in several lines. Her two daughters, Mrs. Bashford Dean, who was Mary Alice Dyckman, and Mrs. Alexander McMillan Welsh, who was Fannie Frederika Dyckman, have as the last of the Kingsbridge Dyckmans decided to perpetuate the old Dyckman house in memory of their parents.

The Dyckman house in question was built at the end of the war of independence, about 1785, as nearly as records go. It was then that the family returned to their lands after the perils of the war. Their ancient home, which had been built opposite the present one, nearer the river, had been burned down by the British. So a new house was built on ground which was somewhat higher and nearer the post road.

James Dyckman and Dr. Jacobus Dyckman were early graduates of Columbia college (1809-1811). Both died young, one a lawyer and the other a distinguished physician—he was health commissioner of New York, author and scientist. It was he who is said to have obtained for Columbia college when he was secretary of the old Philosophical society of this city the relics of Benjamin Franklin which it now has. Jacobus Dyckman, son of the builder of the house, was one of the best known men in New York, long time alderman and a member of the constitutional convention in 1821.

It was Jacobus Dyckman who took an especial liking to his young grandson, Isaac Michael Dyckman, which led ultimately to his coming to stay in the Kingsbridge household. He was then a boy of seven, the second son of Jacobus Dyckman's daughter Hannah, who had married Squire Caleb Smith of Yonkers. So his name was not originally Dyckman. The Dyckman estate was so large it required great care in its upkeep. So it came about that Mr. Isaac Dyckman, the surviving bachelor uncle, looked ultimately to his nephew for help. At that time, it appeared, Mr. Isaac Dyckman had probably more real property in his hands than any other single property owner of Manhattan has had before or since. At his death in 1808 it was found that his estate was to be divided among his various nephews and nieces. His favorite nephew, however, received the major part, but with the proviso that his name should be changed by the legislature from James Frederick Dyckman Smith to Isaac Michael Dyckman.

The latter did not retain the house as part of his heritage. It was no longer as he remembered it, and he had himself built a house in the northern part of the property not far from his uncle's. In fact, the old house had changed inside and out. Even the old cook black Hannah, who was half Indian and lived to be a hundred years old, had gone away—to the old Indian cemetery formerly on the corner of Broadway and Dyckman street. Then, too, Mr. Dyckman found that the approach of a great city meant heavy assessments and taxes, when, in order to have parts of his tract developed, he should practically make people presents of his leaseholds. Indeed, it was this Jan Dyckman who devised for this whole region the farsighted plan of letting tenants have property for almost nothing in order that the future returns might be assured. One of his famous leases gave a tenant a valuable farm for one hen a year for years!

### NEVADA DIVORCE DENIED.

Bridgeport Suit May Bring Adjudication on Validity of Western Decree. Greenwich, Conn.—In the superior court at Bridgeport before Judge Case the many side issues in the divorce petition of Rudolph Ernest Tiedemann against Gertrude Eleanor Tiedemann of this place were disclosed on a motion to strike out an alleged amended reply.

The real issue of the case will show the attitude of the Connecticut court on divorces issued in Nevada. Three years ago Mrs. Tiedemann obtained a divorce in Nevada and was allowed custody of the child and alimony. Last March the husband sued for divorce, alleging desertion, paying no attention to the Nevada decree. He never paid any of the alimony, it is alleged, and now seeks custody of the child.

The amended reply is that the Nevada divorce is not good, because neither of the parties was a resident. Decision was reserved.

### SLIP BRINGS DREAM TRUE.

Printer Laughed, but Loses Hand Exactly as Foretold.

Kansas City.—John W. Reed of the Reed Printing company dreamed the other night of cutting off his hand in a paper cutter in his shop. He laughed when he told about the dream and said he was not superstitious and had no fear.

Next day as he passed the cutter Reed slipped and struck the lever. His left hand went under the blade and was severed at the wrist.

The workmen, remembering the dream, became confused and ten minutes passed before a physician was called.

### LOST GIRL CRAWLS MILES.

Thrown by Runaway, She Is Left Crippled in Desert.

Needles, Cal.—Lost in the desert, forced to crawl for miles on her hands and knees during the night and finally rescued by a railroad engineer as she lay unconscious on the tracks, were the adventures that befell Miss Louise M. Pearson, twenty-two, of Oakland, in the Mohave desert.

Miss Pearson left Lindlow on horseback to locate a mine in Old Dad mountains. Ten miles out her horse threw her. Her ankle was so severely sprained she could not walk, and the horse, carrying food supplies, raced away.

## OVER 240 NEW GAME LAWS ENACTED BY U. S.

### Agricultural Department Presses Campaign of Protection.

Washington.—The department of agriculture has inaugurated a vigorous campaign for the protection of game under the federal law and is aiding the various states in carrying out their statutes.

More than 240 new game laws were enacted during 1915—a larger number than in any previous year except 1911. Forty-three states held regular legislative sessions, and in all of these states except Arizona, Georgia and Nebraska some changes were made in the statutes protecting game. The largest number of new game laws passed in any one state was sixty-one, in North Carolina, but in California, Connecticut, Maine, New Jersey, Oregon, Pennsylvania and Wisconsin the number reached ten or more. Several measures were voted, including a general game bill in Idaho, the first bill appropriating the hunting license fund in Pennsylvania, a bill protecting bears in California and three sections of the game bill in Washington state.

A number of bills were introduced for the purpose of harmonizing the state laws on migratory birds with the federal regulations. In at least nine states changes were made which brought the seasons into substantial agreement—namely, California, Connecticut, Maine, Michigan, New Hampshire, Tennessee and West Virginia. In Illinois the seasons for all migratory birds except coot and waterfowl and in Washington for the smaller shore birds were made to conform with the regulations under the federal law.

Uniformity in the laws of Connecticut, Maine, New Mexico, North Dakota, Washington and Wisconsin, prohibiting hunting between sunset and sunrise. On the other hand, Delaware adopted a resolution opposing the migratory bird law, and Ohio and Rhode Island, which had harmonized their seasons in 1914, changed the seasons on waterfowl this year.

As a result of the decision of the supreme court of the United States on Jan. 19, 1914, sustaining the alien hunting law of Pennsylvania, legislation prohibiting aliens from hunting or owning shotguns or rifles was enacted in at least four states—Massachusetts, New Jersey, North Dakota and West Virginia—but certain exceptions based on property qualifications were made in Massachusetts and New Jersey.

### HOGS FOR HOME BUTCHERING.

Select and Begin to Feed Now and Kill Late in December.

Crisp, frosty mornings warn us that hog-killing time is coming. The farmer is entitled to the best pork that can be produced. It is better not to wait until the animals are fat, but to select a few at once and feed them especially for home butchering. They should have some muscle-building material in addition to the corn, so as to get a proper mixture of lean and fat meat. Oil meal, shorts, and tankage are very good to add to corn and wheat may well form part of the feed, especially this year when there is so much field-damaged grain on hand.

Select hogs that combine as many as possible of the good points of bacon and lard breeds so that there will be reasonably good sides as well as hams and shoulders when the carcasses are cut up. Keep the animals selected growing rapidly but do not let them get too fat, in order to get the most desirable hams and bacon cuts, even though this method does not bring as much lard.

One or two hogs may be killed when ever meat is wanted for immediate use but the main supply for the year should not be killed until late in December. Before that time there is too much danger from the warm weather which causes so much loss of meat every year. Watch the weather fore-

cast and make special provision if you know a warm spell is coming.

Kill more hogs than you need for own use so that you will have some country-cured meat to sell. Many people will buy it in preference to anything else, especially if you establish a reputation in this line. If you live in Missouri, be sure to exhibit at Ham and Bacon Show at Columbia, Farmers' Week.

## STEEL KING GIVES WARNING

Judge E. H. Gary Says Great Prosperity Won't Follow War.—Advocates Bible Motto for Business.

Cleveland, Ohio, Oct. 23.—A warning to the people of the United States that they must not put too much dependence in prophecies that this country will enjoy for a long period after the war unparalleled prosperity which will put it at the head of all nations, was sounded here today by Judge Elbert H. Gary, chairman of the United States Steel Corporation, in an address before the American Iron and Steel Institute of which he is president.

Judge Gary's topic was "Publicity" and he advanced the theory that publicity is one of the best solutions that can be administered to cure business ills from which this country has suffered.

He said that, in his opinion, "we are to have a period of industrial rest in this country" and predicted that would result in a healthy industrial growth.

The speaker advised business men to adopt for their golden rule in business the Bible text from Romans:

"For none of us liveth to himself and no man dieth to himself."

## Woman.

"It takes a hundred men to make an encampment, but one woman can make a home. I not only admire woman as the most beautiful object ever created, but I reverence her as the redeeming glory of humanity, the sanctuary of all the virtues, the pledge of all perfect qualities of heart and head. It is not just not right to lay the sins of men at the feet of women. It is because women are so much better than men that their faults are considered greater. A man's desire is the foundation of his love, but a woman's desire is born of her love. The one thing in this world that is constant, the one peak that rises above all clouds, the one window in which the light forever burns, the one star that darkness cannot quench, is woman's love. It rises to the greatest heights, it sinks to the lowest depths. It forgives the most cruel injuries. It is perennial of life and grows in every climate. Neither coldness nor neglect, harshness nor cruelty can extinguish it. A woman's love is the perfume of the heart. This is the real love that subdues the earth; the love that has wrought all miracles of art; that gives us music all the way from the cradle song to the grand closing symphony that bears the soul away on wings of fire. A love that is greater than power, sweeter than life and stronger than death."—Robert G. Ingersoll.

A miscellaneous shower had been planned as a surprise for Miss Robinson, and the

gifts were placed inside a large pink "cake" in the center of the table. This was surmounted by a cut glass vase filled with pink roses, the vase being the shower gift of the hostesses to the bride. The favors were white china miniature cupids on pink heart shaped

cakes. Pink and white was carried through the menu served. The ices were heart shaped designs in pink with tiny white cupids and the candies were pink hearts. The guests were limited to the members of the Hum Drum club and a few close friends.

MARYVILLE — MISSOURI

"My sales are satisfactory and going fine."—R. P. Hosmer, the Auctioneer.

Mr. Hosmer is the most progressive sale auctioneer in this part of the state. He believes in advertising. His sales are advertised by both newspaper space and bills. He knows as well as the progressive farmers that it pays to advertise a sale generously.

## The Farmers of Nodaway County Find That It Pays To Advertise

It used to be that when a farmer held a sale the first thing he did was to have a number of bills printed. These he placed along the roads in more or less conspicuous places. If he was lucky the bills remained. Most generally long before the sale the sun and rain had made them illegible, or the wind had torn them down.

It occurred to some of the more progressive farmers of the county that this was most unsatisfactory. They could no longer trust sale bills and nothing else. They didn't like to be disappointed in attendance at their sales. They found also that beside the chances of remaining in-

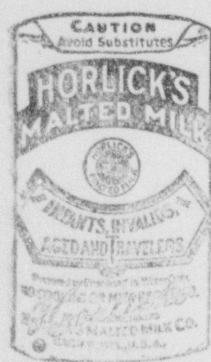

tact the bill was not read closely by those who drove by. They were read by only a few people.

Now these progressive farmers knew that it paid the merchants to advertise in the newspapers and so they began to advertise their public sales in the DEMOCRAT-FORUM and other newspapers. They made their appeal direct to hundreds of buyers through the advertising columns. The prospective buyer read the sale ad at his leisure. The seller had all the big advantage of making his appeal direct to the buyer. The sale advertisement went direct to hundreds of readers, right to their homes. The appeal was convincing.

*Now these progressive Nodaway County Farmers find that this form of advertising pays them many times over, that their sales go hundreds of dollars higher. They can no longer trust sale bill advertising, only.*

You Appreciate All of These Facts. Your First Consideration then when You expect to hold a sale, is to call at the Advertising Department of The Democrat-Forum and arrange for advertising your sale, so that you can reach the hundreds of buyers direct. Your Democrat-Forum advertising space will be your best salesman.

## DREYFUS AT LAST GETS VINDICATION

Given Command After Twenty Years of Degradation.

### ACCUSED AS A TRAITOR.

Was incarcerated on Devil's Island on Charge of Selling Secrets to Germany—World's Famous Case Rent French Nation in Two in Bitter Wave of Anti-Semitism.

Paris.—The restoration of Major Dreyfus to active command in the French army at this time, when the country is at war with her arch enemy, must be looked upon as the most complete vindication of the French artillery officer from the charge that at one time he sold secrets to Germany. The Dreyfus case has several times excited France to the verge of revolution. It has overthrown ministries, incited anti-Semitic fanaticism and provoked extravagant glorification of the army.

Three conditions prevailing in France in 1894 led to the accusing and condemning of Captain Alfred Dreyfus for treason on the allegation that he sold military secrets to the German government.

The first and underlying cause was a violent agitation against Jews. The second was the discovery that somebody was furnishing information about army plans to Colonel Schwarzkoppen, the German military attaché in Paris.

The third was the personal unpopularity of Captain Dreyfus among his associates of the general staff.

These things, combined with a ready unscrupulousness on the part of certain officers to manufacture evidence to bear out their prejudiced theories.

MAJOR ALFRED DREYFUS AS HE LOOKED AT TIME OF HIS TRIAL.

led to a concentration on the brilliant Jewish officer, his accusation, his quick trial and his deportation to horrible imprisonment on Devil's island, off the coast of South America.

In the Dreyfus case the mills of justice were grinding slowly indeed, but they were grinding surely. It took twelve years formally to establish an innocence in which the world at large long believed.

Alphonse of Dreyfus, the martyr, have stood two heroes whose names deserve to be indelibly linked with the love of truth and justice.

One of them was Emile Zola, most noted of modern French novelists. For simple love of truth he dared to take up the cause of a condemned man and defy government and army in his famous letter beginning "I accuse." For that he was sentenced to a heavy fine and imprisonment and the loss of his Legion of Honor button. He fled into exile.

The other man was Colonel Picquart, who sacrificed rank in the army, favor fortune, fought duels and suffered months of imprisonment because he dared proclaim the guilt of his brother officers in condemning an innocent man. It was he who discovered the forgeries and the crimes that convicted Dreyfus and he who had the courage to stand for the truth.

He was ensnared in disgrace, but the rehabilitation of the chief sufferer brought about his restoration. Without the discoveries made by Colonel Picquart while chief of the intelligence bureau of the army it is doubtful whether the innocence of Dreyfus ever could have been established.

In 1899 the courts ordered the prisoner brought back to France for retrial. The session began at Rennes in August before a court of seven officers, presided over by Colonel Jouanest. The prisoner, like one raised from the dead, made a dazed and unfavorable appearance. Labor, his lawyer, made a brilliant case and won great fame.

Dreyfus was freed, but not rehabilitated. The verdict of the court martial left him under suspicion. He refused to accept the judgment as final. He must have complete vindication and be restored to the same plane of innocence on which he stood before the accusation of 1894. This was given him seven years later when the supreme court of the republic annulled the verdict of the Rennes court martial, and then he was given the rank of a major in the army.

### W. B. BLACHLEY, 59, DEAD.

Services at St. Joseph Sanitarium—Funeral Services to Be Held Tuesday.

W. B. Blachley, 59 years old, died at 11:30 o'clock today at a sanitarium in St. Joseph, where he went about a week ago for treatment.

The body will be brought to Maryville tonight and taken to the family home, on West Fourth street.

He is survived by his widow and one daughter, Mrs. Arthur Warner of this city. About two months ago Mr. Blachley suffered a heart prostration and his health gradually failed from that time on until two weeks ago, when his condition became critical.

### YOUTH HIKE ROUND CLOSE

Grunwaldt Nears End of His Long Three Year Jaunt.

The boy said he left San Francisco in a vessel bound for Australia, July 23, 1912, and has been going ever since. All his land trips were made afoot. He has paid his way by doing odd jobs and selling photos of himself.

His route was from Australia to Calcutta by water and then by foot to Bombay, a distance of 1,200 miles. He jumped to Africa and "hoofed" the 2,000 miles from Alexandria to Cape Town. He arrived in New York March 25 last and started immediately to walk the 3,358 miles back to San Francisco.

### A CHILD HATES OIL, CALOMEL, PILLS FOR LIVER AND BOWELS

Give "California Syrup of Figs" if Cross, Sick, Feverish, Constipated.

Look back at your childhood days. Remember the "dose" mother insisted on—castor oil, calomel, cathartics. How you hated them, how you fought against taking them.

With our children it's different. Mothers who cling to the old form of physic simply don't realize what they do. The children's revolt is well-founded. Their tender little "insides" are injured by them.

If your child's stomach, liver and bowels need cleansing, give only delicious "California Syrup of Figs." Its action is positive, but gentle. Millions of mothers keep this harmless "fruit laxative" handy; they know children love to take it; that it never fails to clean the liver and bowels and sweeten the stomach, and that a teaspoonful given today saves a sick child tomorrow.

Ask your druggist for a 50-cent bottle of "California Syrup of Figs," which has full directions for babies, children of all ages and for grown-ups plainly on each bottle. Beware of counterfeiters sold here. See that it is made by "California Fig Syrup Company." Refuse any other kind with contempt.

### THREE TRACTORS COMING

Emerson-Brantingham Sending a 12-20 Mogul—Another May Be Sent, Commercial Club Hears.

Still another tractor is coming for the meetings of the Farm Institute and Teachers Associations next week. The Emerson-Brantingham Company of Kansas City notified the Maryville Commercial Club this morning that they had shipped one of their 12-20 tractors which would arrive here Monday and remain all week.

There is a good chance that another will be sent which will be all that can be accommodated at the Normal without getting more land to plow. This now makes three which are already assured for the meetings.

Considerable interest was attracted yesterday afternoon on the streets to the passing of a tractor along the streets from the station out to the Normal field, where it will be used in exhibitions next week. The chief feature of interest was the fact that William Fehr, small son of Fred Fehr, who accompanied the trip, guided the tractor and demonstrated the simplicity of its management.
